

CONTROLLED DILIGENCE INDEX / V4

Enough proof to continue. No confidential file in the public build.

Public briefs explain the investment case. Full evidence remains governed and is released manually according to audience, relevance and NDA status.

PUBLIC INDEX

Category	Public view	Gated evidence	Release condition
Technical evidence	Public summary	Frozen jobs, timing, scoring and lineage	Technical diligence
External evaluation	Validation summary	Governed closeout and review correspondence	NDA + relevance
Economics model	Fixed formula	Assumptions, sensitivities and source capture	Qualified investor
Commercial strategy	Five-stage path	Pipeline, pricing and pilot gates	Qualified investor
Deployment qualification	Category only	Runtime, security and operating boundary	Technical diligence
Corporate and legal	Team roles	Entity, governance and service records	Legal diligence
IP and access	Mechanisms withheld	Code custody and disclosure controls	NDA + need to know
Risks and unknowns	Frontier disclosed	Full contradiction and milestone register	Qualified diligence

FAIL CLOSED
Public-site rule

Private correspondence, the gated validation appendix, source code, selector mechanisms, customer data and confidential legal records are excluded from the public root.
